Fairmont, MN. On May 10, 2022 at approximately 6:44 am, Fairmont Police Officers responded to the 500 block of North Main Street in Fairmont for a welfare check on a male party who was reportedly laying alongside the roadway next to a bicycle. Officers arrived shortly after and found a 53-year-old male party unresponsive. Mayo Clinic Ambulance Service was immediately called to assist at the location. The male party was determined to be deceased at the scene. Upon initial investigation, the incident appears to be consistent with a medical issue encountered by the male party. There are no concerns of foul play or for the safety of the general public. The male will be transported to the Ramsey County Medical Examiner's Office for an autopsy. The name of the male party is not being released at this time pending notification of family members.

The Fairmont Police Department was assisted at the scene by the Martin County Sheriff's Office and Mayo Clinic Ambulance Service. The incident will remain under investigation until a final cause of death is determined.
